

IMPACT VARIABLE CORNER BEND POST FOR KLIPLOK ROOF

AFA935185(CB)

Features

- The Variable Corner Bend Post is designed with an inbuilt shock absorption mechanism which activates in the event of a fall and reduces the forces on the user's body to bearable limit and leaves the Kliplok roof panel intact to maintain architectural integrity.
- The Variable Corner bend tube is attached to the intermediate which provides an angle change in the system, internal or external up to 40 degrees.
- Designed to be installed on Kliplok roof Profiles with a specially designed bracket assembly with a span distance of 650mm.
- To form the tube to the correct angle, refer to UIM.
- Suitable for 4 users in a System
