

CONSTANT FORCE INTERMEDIATE POST FOR STANDING SEAM ROOF

AFA935355

Features

- The Intermediate Post Designed with an inbuilt shock absorption mechanism which activates in the event of a fall and reduces the forces on the user's body to bearable limit.
- Designed to be installed on Standing Seam roof profiles
- The post deploys in the event of a fall to absorb the energy hence leaves the roof panel intact to maintain architectural integrity.
- Intermediate can be spaced between 5m - 15m apart
- Suitable for 4 users in a System
- Easy and quick to install to suit Seam bulb up to 23.0 mm.
- Suitable for Seam distances of 200mm - 400mm
