

IRSQ ADJUSTABLE FOOT LOOP

AFX201042

Features

- Adjustable foot loop used for ascending on a rope.
- Must be fixed to an ascender handle.
- Underfoot strap is abrasion resistant and is slightly rigid to make it easier to step into.
- Combination buckle makes adjusting the length easier.

Webbing

Material	:	Polyester
Width	:	44mm ± 1mm
Minimum Breaking Strength	:	25 kN

Protective Sleeve

Material	:	High Tensile Polyester
Width	:	50mm ± 1mm
Minimum Breaking Strength	:	25 kN

Adjuster Buckles

Material	:	Alloy Steel
Finish	:	Silver / Golden Yellow Galvanized
Minimum Breaking Strength	:	15 kN

Weight

260 gm ± 10 gm
