

PRODUCT IMPROVEMENT NOTICE

ENHANCED OVERHEAD AND WALL-MOUNTED INTERMEDIATES

Based on valuable customer feedback, we are pleased to announce a **design enhancement to our overhead and wall-mounted intermediates**.

The updated design allows the **AFF119028 traveller** to move more smoothly and consistently when passing through the **AFF111510(OH) intermediates across the entire system**.

NEW DESIGN

AFF111510(OH) INTERMEDIATE

OLD DESIGN

AFF111510 INTERMEDIATE

Please note the new design will be in stock shortly. The existing design is still available to be used.

This improvement reflects our ongoing commitment to product excellence and user safety. We sincerely appreciate your feedback and will continue to implement enhancements that deliver improved performance and reliability in the field.

Our engineering and design teams have made every effort to ensure a seamless transition to the new design. This update is critical to ensuring compliance with safety standards and maintaining the integrity of our fall protection systems.

If you have any questions or require further clarification, please contact your respective Country Manager.
