FIXED LINE SYSTEMS

KStrong fixed line systems are made of corrosion-resistant stainless steel. Some components are also CED-coated for greater protection. Our systems are thus warranted for **20 years (15 years in Marine environments)** so long as the system is inspected annually and maintained after inspections by a KStrong Certified inspector according to requirements of EN 365.2004.

PERSONNEL PROTECTIVE EQUIPMENT (PPE)

KStrong PPE products come with a **two (2) year warranty**. Should there be a manufacturing defect within 2 years of purchase, KStrong reserves the right to either i) repair the product; or ii) replace the product with a comparable product; or iii) refund the amount paid for the product.
