

KSTRONG 2 MAN 20M WEBBING HORIZONTAL LIFELINE

AFA940001

KStrong Horizontal Lifeline has been designed to be a temporary webbing static line allowing the users to be secured either in restraint or fall arrest when working near exposed edges.

Features

- Consists of Ratchet Tensioner that allows easy tensioning of the lifeline between two structures.
- Has 2 Cross Arm Straps each to tie off to the structure where the anchorage is required.
- The complete system is supplied in a bag, which is permanently attached to the assembly and also enables the user to easily transport.
- Lanyard can be connected with Karabiners to the HLL allowing movement along the length while keeping the user secured and safe at all times.
- Suitable for 2 users.
