

USER INSTRUCTION MANUAL
EDGE PROTECTOR

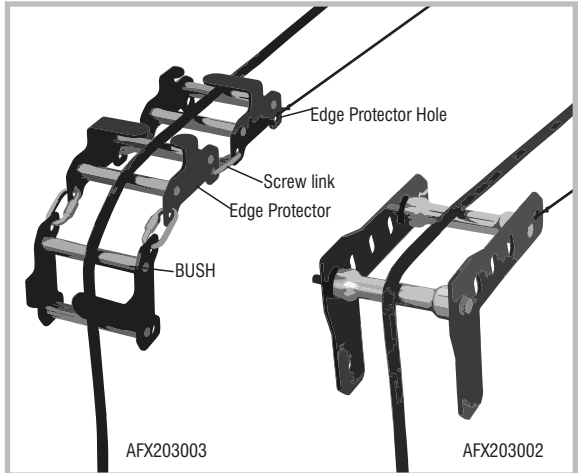

THESE INSTRUCTIONS APPLY TO THE FOLLOWING MODEL:

AFX203002, AFX203003

Please read and understand the manufacturer's instructions for each component or part of the complete system. Manufacturer's instructions must be followed for proper use, care, and maintenance of this product. These instructions must be retained and be kept available for the user's reference at all times. Alterations or misuse of this product, or failure to follow instructions, may result in serious injury or death.

Note: The user is advised to keep this user instructions document for the life of the product.

1. **INTRODUCTION:** Designed to guide a moving rope through simple man made edges and complex natural edges with Inter-connectable units for added protection. Comes with rollers which rolls on ball bearing for easy movement of rope on edges.
2. **APPLICATION:** Vertical and horizontal rollers guide the moving rope with minimum friction to provide protection at all angles, constructed of three independent modules that can be positioned to adapt to the terrain. Multiple units can be connected to extend the protected area with multiple rigging points that accepts multiple ropes.
3. **INSPECTION:** Visually inspect the system before each use to ensure that it is in a serviceable condition and is operating correctly. If during inspection, doubts are raised about the safety of the system or a component, these should be replaced either by the manufacturer or a competent person.
4. **PRECAUTIONS:**
 - Ensure the Medical condition of the user does not affect his safety in normal and emergency use.
 - The equipment shall only be used by a person trained and competent in its safe use.
 - A rescue plan shall be in place to deal with any emergencies that could arise during the work.
 - Ensure that the anchor is installed directly above the user's head.
 - Ensure that the equipment is compatible with other items when assembled into a system.
 - It is essential to verify free space required beneath the user at work place before each occasion of use so that in case of a fall there will be no collision with ground or other obstacle in the fall path.
5. **INSTRUCTIONS FOR USAGE:**
 - Tie a Tag Line to the Edge Protector Hole.
 - Place the Equipment on the edge.
 - Connect the Tag Line with the structure so that the edge protector does not displace from the edge.
 - Guide the Rope through the Edge Protector.
6. **ANCHORAGE STRENGTH:** Ensure that the structure on to which the anchor is fitted is strong enough to withstand a load of 20 kN.
7. **ADVICE & INFORMATION:**
 - It should be the personal property of it's user.
 - It should not be used in highly acidic or basic environments.
 - Ensure that the equipment is compatible with other items when assembled into a system.
 - It is essential for the safety of user that if the product is resold outside the original country of destination, the reseller shall provide instruction for use, maintenance, for periodic examination and for repair in the language of the country in which product in to be used.
9. **COMPATIBILITY:** To optimise protection, in some instance it may be necessary to use the anchor with suitable boots /gloves /helmet/ ear defenders. In this case, before carrying out the risk-related activity, consult your supplier to ensure that all your protective products are compatible and suitable for your application.

10. **REPAIR:** If the product becomes damaged, it will NOT provide the optimum level of protection, and therefore it must be immediately replaced. Never use damaged product.
11. **WITHDRAWAL FROM USE:** If the system has been used to arrest a fall, it should be removed from service and returned to the manufacturer or a competent repair centre for servicing and re test.
12. **CLEANING:** In case of minor soiling, wipe the anchor with cotton cloth or a soft brush. Do not use any abrasive material. For intensive cleaning wash the anchor in water at a temperature between 30°C to 60°C by using a neutral detergent (pH 7). The washing temperature should not exceed 60°C. Do not use acid or basic detergents.
13. **STORAGE AND TRANSPORT:** When not in use, store the anchor in a well-ventilated area away from heavily acidic or basic environment. Never place heavy items on top of it. Also ensure that it is stored away from chemically hazardous environment preferably storage should be in dry environment.
14. **WARNING.**
 - Do not make any alteration or additions to the equipment without the manufacturer's prior written consent and repair shall only be carried out by personnel trained by the manufacture & duly authorized by him.
 - The equipment shall not be used out side its limitation, or for any purpose other than that for which it is intended.

MARKING EXPLANATION

The Product is marked with :

- () Identification of the manufacturer.
- (ii) Product description
- (iii) Product Ref. No.
- (iv) UID for traceability
- (v) Manufacturing Date
- (vi) Read the instructions before use.
