Client : PT. Panasonic Industrial Devices Batam (PIDSG-BT)
Project name : Roof Lifeline System for Roof Maintenance Activity
Product used : IMPACT AFF4000 Standing Seam Roof Lifeline System

Background

PT. Panasonic Industrial Devices Batam in Indonesia is part of the Panasonic Corporation, headquartered in Japan. The electronic components produced at PT Panasonic Industrial Devices Batam are Inductor, Capacitor, Varistor and Resistor.

There is high risk activity during work on the roof that could result in injury. Due to their safety commitments, a safety improvement has been made with the install of a Safety lifeline system on the roof to provide an anchorage system for worker safety.

Requirement

The lifeline installed must comply with EN795:2012 and CENTS 16415, as well as the lifeline installed on the standing seam roof with 650 mm wide profile required anchor posts that fit the roof profile. The installation must be done safely following work at height standards using a competent and certified installer.

KStrong Solution

KStrong used the new AFF4000 IMPACT Standing seam series that can fit into standing seam profiles as required. The lifeline is certified to EN795:2012 and CENTS 16415 using anchor type A & C. KStrong has a local certified installer with a trained, professional and competent installation team which meets the requirements of PT. Panasonic Industrial Device Batam.

About KStrong

The founders of KStrong have been successfully manufacturing personal protective equipment globally for over 20 years. With the support of a large team of highly experienced research and product development specialists along with global manufacturing facilities, KStrong is poised to become the preeminent brand of choice for personal protective safety products. KStrong takes pride in assuring careful measures to ensure all products meet applicable government codes and professional standards, such as EN, AS/NZS and ANSI. We look forward to helping your company protect its most valued possession, its workers!

Customer Testimonial

“KStrong and HSS team are experts in their fields and all of them are certified. The installing process was done professionally and quickly. The products were well installed and now we have better protection for the workers that perform roof maintenance activities” said Yunda Tauriza Putra, Head of Facility Department PT Panasonic Industrial Device Batam.
