

KSTRONG EDGE TEMPORARY STRAIGHT BAR ROOF ANCHOR

AFA930552

KStrong Temporary roof anchors are designed for Temporary Anchorage requirements. Suitable for temporary access to roofs for maintenance or installation requirements.

Features

- Temporary Straight Bar roof anchor provides simple and effective way for roof access onto sheet metal roofs.
- Temporary and reusable alternative to installation of a permanent Purlin style anchor
- Can be used as a temporary anchor point in applications along a roof line where no permanent anchor point exists.
- Quick installation and removal. (Installation should always be conducted by a competent person.)
- Suitable for Trapezoidal and Custom Orb Roof profiles
