

SWAGELESS TENSIONER WITH TFI TO SUIT 8MM CABLE (AFF4000)

AFF114100(SL)TFI

Features

- The tensioner device is an interconnection piece between the cable and energy absorber with cable length adjustment / line tension adjustment feature.
- Cable sealing is provided to prevent unintentional rotation of tensioner due to vibrations.
- Swageless Terminals are simple and easy to use as they do not require any additional tools.
- Can be used to terminate 8mm wire whenever and wherever required which makes them perfect for use on-site.
- Comes with a tension indicator plate which starts rotating once the adequate amount of tension has been achieved in lifeline.

How To Use

Refer to User Instruction Manual

Contracted Length (Minimum)

417.5 mm (16.43")

Extended Length (Maximum)

563.0 mm (22.16")

Opening

207.0 mm (8.14")

Material

Stainless Steel

Minimum Breaking Strength

25 kN (5600lbs).

Weight

0.988 kg ± 0.020
