

KSTRONG K-GATE

K-Gate, is a spring-loaded industrial gate designed for guardrails and safety rails. Automatically self-closing behind the user, it provides essential protection against hazardous gaps in handrails or safety barrier systems.

Features

- Automatic closure, ensures the gate closes behind the user, maintaining a safe working environment.
- Suitable for roof hatches, ladder access points, and perimeter guardrails.
- Eliminates gaps within guardrail sections, enhancing safety during roof access.
- Easy to install by attaching two U brackets directly around the upright posts.
- Integrates seamlessly into safety rail systems to prevent falls from height.
- Designed to fit openings up to 1m
- Lightweight
- Can be adjusted on site by simple cutting the top, mid and bottom rails to fit smaller openings. No welding required.

How To Use

Refer to User Instruction Manual

Metal Components

Frame : High Strength Alloy Steel, Powder Coated
Joiners : Aluminum

Weight

13.54 kg ±20 gm.

Relevant Standards

Tested as per EN 14122-3 : 2016
