

PRODUCT IMPROVEMENT NOTICE

KSTRONG CORNER POST FOR CONCRETE FLOORS & CEILINGS (AFA935204)

Please note the product update to the Corner Post for Concrete Floors & Ceilings (AFF4000).

The improved Corner Post has a new design where we reduced the welded area of the pipe to the base allowing the Traveler a much smoother pass through the outer curve of the corner.

PREVIOUS

NEW

With this new design, we have also reduced the size of the base and installation can be done using only 1 fastener, unlike the previous model where 3 fasteners were needed.

Our engineers and design teams have made every effort to ensure that the transition to the new design is seamless and are confident that your experience with the newly redesigned product will be positive in every sense.

Thank you for being a valued customer, we look forward to continuing to serve you with our reliable, high-quality products.
