

PRODUCT IMPROVEMENT NOTICE

KSTRONG IMPACT EXTREMITY POST FOR TRAPEZOIDAL ROOF (AFA935410)

We wish to inform you regarding a product update to the Impact Extremity Post for Trapezoidal Roof.

The new Impact Extremity Post will now come in **clear ED coating** that offers several advantages over the previous version that significantly increases the durability, aesthetics, and overall performance of the product including enhanced corrosion protection and a more uniform coating thickness.

PREVIOUS
ED COATED GREY

NEW
ED COATED CLEAR

While the appearance may have been updated, the core features and capabilities of the product are the same in every way. The design now also **incorporates larger bolt holes**, this will make **mounting on concrete roofs and structures** more simple and straightforward. This has been implemented due to customer feedback and user testing leading to the new improved design.

Our engineers and design teams have made every effort to ensure that the transition to the new design is seamless and are confident that your experience with the newly redesigned product will be positive in every sense.

Thank you for being a valued customer, we look forward to continuing to serve you with our reliable, high-quality products.
