

IRSQ POLE KIT

AFX207004

KStrong Rescue Pole Kit is specifically designed for efficient and safe rescue operations, enabling a rescuer to securely attach a retrieval system to a fallen or incapacitated worker without entering a hazardous area. This makes it an essential tool for confined space rescues and work at height emergencies, where direct access is challenging or unsafe.

Features

- Ergonomic and comfortable for rescue of injured person.
- Allows assisted rescue of worker after a fall ensuring fast and efficient rescues.
- Easily attaches to D-Rings on a harness.
- Extension pole adjusts from 0.75m – 3m.
- Aluminum Scaffold connection hook with 4m tagline with Karabiners.
- Compact and lightweight design.
- Carry bag for ease of transportation.

Note: The telescopic rescue pole is not a life support device and does not carry fall arrest load ratings. It is designed solely for extending reach to attach approved rescue connectors.
