

Declaration of Conformity

In Accordance with ANSI/ISEA 125-2014 and ANSI/ASSP Z359.7-2019

Declaration #: DOC-UFL201622

Declaration Date: 09/18/2020

Item #: UFL201622

Description: KStrong® 6 ft. Leading Edge (LE) Rated Twin Leg 100% Tie-off Clear Pack Design shock absorbing coated wire lanyard with (1) Snap Hook and (2) Rebar Hooks (ANSI)

Brand Name: KStrong

Manufacturer: KStrong

Address: 150 N. Radnor Chester Road, Suite F200, Radnor, PA 19087

**Additional Items Conforming
Under this Declaration (If Applicable):**

KStrong declares that the product(s) listed above is in conformity with the requirements of the following performance standard(s):

ANSI Z359.14-2014

Conformity Assessment Method in accordance with ANSI/ISEA 125-2014

Level 1:

KStrong Lab Outside the Scope of ISO/IEC Standard 17025:2017

Level 2:

KStrong Lab Within the Scope of ISO/IEC Standard 17025:2017

Level 3:

Independent 3rd Party Lab accredited to ISO/IEC Standard 17025:2017

Supporting Documentation: KS-Test-UFL201622.pdf

This Certificate is a guarantee that the above standard(s) was met by the requirements of such standard. Testing was performed under normal operation mode. The results of testing apply only to the particular sample tested and the specific test carried out. This Certificate is only issued for products which have passed the testing requirements of listed standard(s).

Test Verification of Conformity

On the basis of the tests undertaken, the sample(s) of the below product have been found to comply with the requirements of the referenced specifications at the time the tests were carried out.

Applicant Name & Address : KStrong Inc
150 N. Radnor Chester Rd
Suite F200
Radnor, PA 19087
USA

Product(s) Tested : Energy Absorbing Lanyard (Leading Edge)
UFL201601

Model(s) : UFL201622

Relevant Standard(s)/Specification(s) : ANSI Z359.14-2014 Edition

Verification Issuing Office Name & Address : Intertek Testing Service NA Inc.
3933 US Route 11
Cortland NY 13045

Date of Test(s) : 6/9/20

Verification/Report Number(s) : 104361982CRT-001

NOTE : This verification is part of the full test report(s) and should be read in conjunction with it.

This Verification is for the exclusive use of Intertek's Client and is provided pursuant to the agreement between Intertek and its Client. Intertek's responsibility and liability are limited to the terms and conditions of the agreement. Intertek assumes no liability to any party, other than to the Client in accordance with the agreement, for any loss, expense or damage occasioned by the use of this Verification. Only the Client is authorized to copy or distribute this Verification. Any use of the Intertek name or one of its marks for the sale or advertisement of the tested material, product or service must first be approved in writing by Intertek. The observations and test results referenced from this Verification are relevant only to the sample tested. This Verification by itself does not imply that the material, product, or service is or has ever been under an Intertek certification program.

Name: Matthew Stevens

TEST REPORT FOR PN INTERNATIONAL

Report No.: 104092990CRT-001

Date: September 27th 2019

SECTION (TEST)	REQUIREMENT	RESULTS				COMPLIANCE
5	Marking and Reference Literature					
5.1	General Marking Requirements					
5.1.1	Shall be in English					PASS
5.1.2	Required markings shall endure the life of the component, when PSL's are used they shall comply with UL969-89					PASS
5.1.3	Equipment shall be marked with the following:					PASS
	Marking	Comments	YES	NO	NA	
	Part number and model designation		X			
	Year of manufacture		X			
	Manufacturer's name or logo		X			
	Capacity rating		X			
	Serial number		X			
	Standard number		X			
	Warning to follow the manufacturer's instructions included with the equipment at time of shipment from the manufacturer		X			
5.2	Specific marking requirements					
5.2.1	PEA's and EAL's shall be marked with the following:					PASS
	Marking	Comments	YES	NO	NA	
	The fiber used in the material of construction		X			
	The length		X			
	The need to avoid contact with sharp edges and abrasive surfaces		X			
	The need to make only compatible connections		X			
	The maximum elongation		X			
	Restriction, if, any, on the types of components, with which the PEL is designed to be used		X			
	The Avg AF, Max FF distance , and capacity of the PEA on a separate label identical in size, color, and content as fig 17a and 17b		X			
	6 ft FF PEA's shall be in black print on a contrasting white background, fig 17a				X	
	12 ft FF PEA's shall be in white print on a contrasting black background, fig 17b		X

Date: September 27th 2019

SECTION (TEST)	REQUIREMENT	RESULTS				COMPLIANCE
5.2.2	Y-Lanyard Marking In addition to, Y-Lanyards that fail the Dynamic Hip Test in section 3.2.10 must include a warning on both connecting ends of the lanyard specifically directing users how to safely store the unused leg of the lanyard					PASS
5.3	General Instruction Requirements					
5.3.1	Instructions shall be in English, and affixed to the equipment at time of shipment from the manufacturer					PASS
5.3.2	Instructions shall contain the following information:					PASS
	Instructions	Comments	YES	NO	NA	
	A statement that the manufacturer’s instructions shall be provided to the users		X			
	Manufacturers name, address, and telephone number		X			
	Manufacturer’s part number and model designation for the equipment		X			
	Intended use and purpose of the equipment		X			
	Proper method of use and limitations on use of the equipment		X			
	Illustrations showing locations of markings on the equipment		X			
	Reproduction of printed information on all markings		X			
	Inspection procedures required to assure the equipment is in serviceable condition and operating correctly		X			
	Anchorage requirements		X			
	An illustration of how to calculate free fall distances		X			
	Criteria for discarding equipment which fails inspection		X			
Procedures for cleaning, maintenance, and storage		X				
Reference to Z359.13		X				
5.3.3	Instructions shall require that only the equipment manufacturer , or persons or entities authorized in writing by the manufacturer, shall make repairs to the equipment					PASS
5.3.4	Instructions shall require the user to remove equipment from field service if it has been subjected to the forces of arresting a fall					PASS
