

KStrong® IMPACT™ Swaged Cable Termination

Model: UFF113210

DESIGN

- The cable extremity is a stainless steel attachment fitted to the end of the wire rope to produce a swaged termination that fits well with the wire rope.
- The swaged crimping provides a neat end connection.
- The cable extremity provides strong swaged end connections to the user working on the line.
- A Slip Indicator is provided to identify the slippage of the wire from the swaged extremity.
