

KStrong® Rope Termination Anchor

Model: UFX903050

KStrong's Rope Termination Anchor lets you combine an anchor connector with a vertical lifeline system. Just thread the rope through the Rope Termination Anchor as instructed, and either hook it with a suitable carabiner to another anchor connector, or loop it around a compatible anchor point and pull the rope through the Rope Termination Anchor to make a self-sufficient system. It works great with hard to reach fixed anchors.

DESIGN

- Provides an anchor point for lifelines using the top hole for connecting to anchorage and the others for threading the rope.
- Quick emergency exits, lowering from one level to another level below using an escape rope and connecting hardware.
- Suitable to use with 5/8" (16mm) 3-strand double braid Rope or 7/16" (11mm) kernmantle rope lifeline.
- The plate provides a quick reusable field termination that eliminates the need for knots, splices, eyes or factory terminations on your ropes

MINIMUM BREAKING STRENGTH:

23 kN (5000 lbs.)

MATERIAL

High Strength Aluminum Alloy

FINISH

Powder coated

WEIGHT

0.55 lbs. ± 0.02 lbs. (248.5gm ± 10gm)

RELEVANT STANDARDS

Meets or Exceeds all applicable OSHA 1926 Subpart M, OSHA 1910, ANSI Z359.1-2007, and ANSI A10.32-2012.
