K-STRONG®

UNRIVALED SAFETY.

2024
Q1 - CATALOG

WELCOME TO UNRIVALED SAFETY

With the support of over 4000 employees worldwide and nearly 43 acres of manufacturing production under roof, KStrong is well positioned to help your company protect its most valuable assets, its employees. In addition to meeting all OSHA fall protection codes in the USA, KStrong prides itself in providing your company with Level 3 ANSI certified products, the highest level of certification available.

As one of the world's largest Full-Service providers of fall protection, we can help your company tackle and solve even the most difficult fall hazards, those where traditional fall protection solutions come up short. KStrong Services Group (KSG) offers Engineering, Training and Consulting services to help your company comply with all OSHA fall hazard requirements.

We look forward in 2024 and beyond to keeping your employees working at elevation and in confined spaces safer!

Sincerely,

John Kemp
President KStrong USA/Canada

SELF-RETRACTING LIFELINES

KStrong is proud to offer a full range of ANSI rated Class 1 and Class 2 self-retracting devices to help workers meet nearly every user requirement covering a wide variety of applications. KStrong's Micron™ and BRUTE™ brands have become the preferred choice in construction, utilities maintenance, and general industries as they provide durable performance and reliability, supported with industry-preferred Level 3 ANSI independent 3rd-party testing documentation. KStrong continues to expand its self-retracting device offering to the market in 2024 with the introduction of Arc-Flash rated Micron™ units and additional lifeline lengths within the BRUTE™ product brand.

KStrong® New SRL ANSI Standard

New ANSI Standards for Fall Protection SRLs

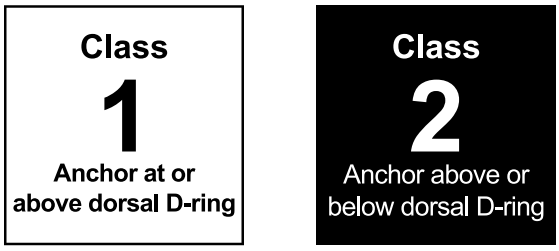

ANSI/ASSP Z359.14-2021 standard has been recently updated to minimize confusion in the market as to proper use of Self-Retracting Lifelines (SRLs) in relation to anchor height requirements. Beginning in April 2022, KStrong began transitioning manufacturing of SRLs from current ANSI Class A/Class B to the new Class 1/Class 2 standard.

Classification Changes

SRLs will now be classified by two new class ranges: Class 1 and Class 2. The table below identifies Class 1 SRLs that are only to be used only on overhead anchorages and are subjected to a max free fall of 2 feet or less. Class 2 SRLs can only be used in applications where overhead anchorages may not be accessible and a structural edge is used instead; these can withstand a free fall of no more than 6 feet over an edge.

ANSI Z359.14-2014 (Old)	ANSI Z359.14-2021 (New)
Class A -Tested overhead with 282 lb. weight -Must arrest fall within 24" -Average force less than 1,350 lbs.	Class 1 -Tested overhead with 310 lb. weight -Must arrest fall within 42" -Average force less than 1,350 lbs.
Class B -Tested overhead with 282 lb. weight -Must arrest fall within 54" -Average force less than 900 lbs.	Class 2 -Meets Class 1 standards -Tested at foot level with 310 lb. weight -Arrest distance printed on label and instructions

SRLs must have Class 1 or Class 2 clearly labeled on the product as per the image below.

Also included in the ANSI Z359.14-2021 standard are testing requirements for a SRL-P, which is a self-retracting lanyard worn by the user on a full-body harness to be used as a fall arrest connector. Standard specifics are detailed in the table below.

Class 1 and Class 2 KStrong products are now available in the United States.

When it comes to your fall protection equipment, a full-body harness is one of the most important equipment choices you can make. While KStrong harnesses are built to meet or exceed ANSI standards and OSHA regulations, we've also designed comfort, lumbar support, positioning D-rings and accessibility into our body wear to provide workers with continued freedom of movement, sustained safety, and improved productivity while working at height or in confined spaces. KStrong Essential™, Elite™, and Epic™ harnesses provide workers with a very high degree of confidence, which directly affects the worker's productivity. While many of our safety harnesses can be used on most jobs, we also manufacture innovative full-body harnesses for specific uses within different industries such as Oil and Gas, Utility, Tower, and Wind Energy.

CONNECTORS

KStrong's extensive selection of connectors for fall arrest, work positioning, and restraint applications is built on years of dependable design, construction, performance, and quality through rigorous testing to provide your worker with ultimate protection. As we manufacture all our connectors in-house including all hardware (snap hooks, carabiners, etc.), you are guaranteed products of the highest quality all backed by industry-preferred Level 3 ANSI independent 3rd-party testing documentation. When you need to be connected, rest assured KStrong has the right equipment for the job!

ANCHORAGES

Selecting an appropriate anchorage connector for your fall arrest system is a critical element in protecting a worker from fall and confined space hazards. Designed to fit a broad scope of general and specific user applications, our offering of anchorage connectors meets those requirements head-on by providing a secure point of attachment. Fall arrest anchors are identified by what they connect to such as steel anchors, concrete anchors, roof anchors and specialty safety anchors designed for your unique applications. Your worker can work with confidence knowing each connector is rigorously Level 3 ANSI tested and meets or exceeds industry standards. For 2024, we are committed to expanding our offering of anchors to better protect your workers!

UFA30201S | Steel Swivel Roof Anchor for Self-Retracting Lifeline Used on Standing Seam Metal Roof Deck 16-24”

UFA30070 | Parapet Anchor Clamp with Extended Movable Arm

UFA55370 | Single Seam Roof Anchor

ANCHORAGES

Door Jamb/Window Anchor

UFA30401 | Door Jamb/Window Anchor, adjustable 23.6" - 49.2"

- KStrong Door Anchor provides a non–intrusive anchor point and can be easily installed inside the interior of a building or window opening enabling the most difficult jobs to get done safely and with confidence.
- KStrong Door Anchor can be installed by just compressing it against the door or window frame, jamming itself between the two vertical sides.
- It is constructed of Aluminum alloy, hence it is highly corrosion resistant and is lightweight, weighing less than 10.7 lbs.
- The arms of the KStrong Door Anchor are adjustable enabling installation on door/window frames of width from 23.62" to 49.21".
- Fast and easy Installation with built in adjustment knob hence no tools or drilling is required.
- Extremely portable design for easy transport, storage and usage. Every Door Anchor is provided with a deluxe carrying bag.

60 FT. ADJUSTABLE WRANGLER JR.™

2-PERSON TEMPORARY HORIZONTAL LIFELINE

Specialty Anchor

UFA30420 - Off-set I-beam stanchion for approved horizontal lifelines

- Anchor post designed to be installed on metal I-Beam
- Can be used as a stand-alone anchor post or to form a horizontal lifeline along the length of I-Beam
- The post comes with a unique tilted design to allow unobstructed movement of the user during the construction of roofs or metal structure
- Span lengths are adjustable with help of intermediates
- Compatible with I-Beam having flange width of 5.9” (150mm) to 8.66” (220mm)

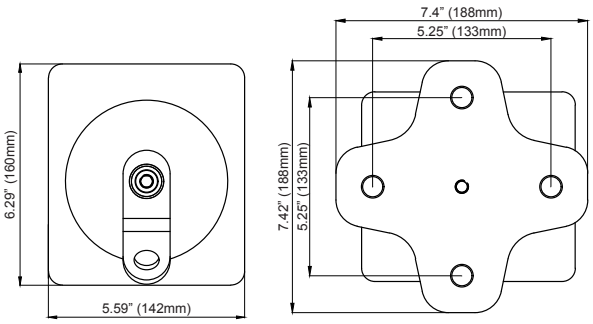

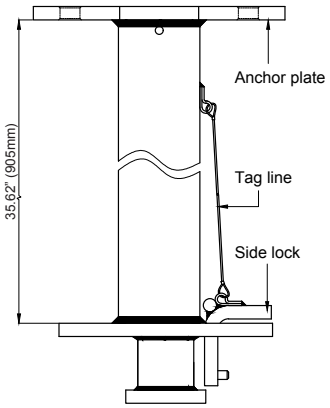

Specialty Anchor

Vertical Post for Containers

	Model	Description
A	UFA30430	Four Hole Anchor Plate Top
B	UFA30430(SW)	Swivel Anchor Top

• Container anchor post is designed to provide a temporary anchor for working on top of 20 ft. - 40 ft. shipping containers.
• In addition to being used as a stand alone anchor post, it can also be used to form a horizontal lifeline over the top of a container depending upon the requirement of work to be done
• Comes with a side lock and tagline arrangement for easy and secure installation that can be performed by one person
• Four holes on the anchor plate (UFA30430) can be used for making connections as anchor points
• Consists of side handle with special grip for easy carrying and safe transportation
• Can be easily removed without damaging the container

Rescue and Descent - 7 ft. Megapod™ Tripod Kits

	Model	Description
A	UFT510007DK	7 ft. Deluxe Megapod™ Tripod Kit. Includes Tripod, 60 ft. 3-way Rescue Retrieval SRL-R with Mounting Bracket, 60 ft. Material / Personnel Winch, and Storage Bags for Tripod / Equipment.

UFC405100 | Tie-back snap hook with 5000 lb. rated gate.

UFC408100 | Large rebar hook, stamped - 2.63" opening

DROP PREVENTION

KStrong Kaptor™ tool lanyards are designed to reduce the risk of a dropped tool injuring anyone positioned below a worker. The worker's use of a tool securely attached to a Kaptor™ tool lanyard should significantly reduce the chance of an injury from occurring to workers or others below. Tool lanyards are designed to be attached securely at one end to a worker or to a suitable structure, with the other end attached to common hand tools. KStrong offers a variety of tool lanyards and attachments whose application is determined by the weight of the tool and how the lanyard is attached to a worker or to a structure. Please watch our growing video library for more information.

KSTRONG® COMPASS™

THIS. IS. A. GAME CHANGER!

Your KStrong® fall protection gear just got an upgrade like no other.

KStrong Compass™ is a cloud-based software app which relieves the user from a mountain of paper records. The unique AIR system (Automated Inspection Reminder system) reminds a user of a pending competent person inspection that is required to minimize accidents that may happen due to equipment that has not been properly inspected.

Watch Demo Inspection Video

Compass™ Features

Introducing KStrong Compass™, the fall protection industry's first "free at your fingertips" mobile application for fall protection equipment asset management.

Pre-Use Inspection Instructions

The mobile app provides each user vital information on inspection and periodic maintenance needs and helps in increasing the life of the equipment.

Get Tech Data & Manuals

User Instruction Manuals, Technical Data Sheets, Declarations of Conformity, Product Images, Videos, PowerPoint presentations and more are available.

Track Usage

The KStrong Compass™ user management system allows equipment to be issued to individuals, thus ensuring accountability towards the upkeep of the equipment.

Use in the Field

If you have an iOS or ANDROID phone or device, that is all you need. Simply open the camera on your phone or device and scan the QR code, Label or RFID tag that is included with every KStrong product.

Get Reminders

The unique AIR system (Automated Inspection Reminder) reminds a user of a pending competent person inspection that is required to minimize accidents due to equipment that has not been properly inspected.

Ladder Rescue System

UFZ809030 | 20 ft. Rescue Ladder System

KStrong 20 ft. Rescue Ladder System has been designed for the self-rescue of a conscious user who has had a fall. The ladder kit allows the user to climb to safety with the added benefit of using a backup rope attached to the user which reduces the chance of a secondary fall.

- Rescue ladder kit with 20 ft. ladder and 6 ft. concrete embed strap with loop at both ends
- Equipped with kernmantle rope, rope grab and carabiners
- Simple and easy to deploy Fast Drop System using an existing or a temporary anchor point
- The added rope grab system allows the user to climb efficiently while safely reducing the risk of a secondary fall.
- Optimized for fast and easy rigging
- Only requires one person to operate
- 23 ft. of Rope
- Comes with convenient backpack style bag
- Total kit weight 8.84 lbs.
